PRODUCT BROCHURE

Custom Bike Rack Trailers

Complete turnkey trailer systems — 6 to 24 bikes

A complete, Australian-made bike trailer that arrives **registered, road legal and fully assembled**. Hitch it up and go.

Pictures show previous builds. Trailer designs, features and colours vary from one custom build to another.

6–24 bikes
One system, sized to suit you

From $5,700
Complete system, inc. GST

About 6 weeks
Typical build time

WHO IT'S BUILT FOR

Businesses

Tour operators, schools, bike groups and hire fleets. The turnkey way to move a whole group's bikes in one trip.

USUALLY 14–24 BIKES

Families

For everyone who has more bikes and gear than a vertical rack can take — without loading the car.

USUALLY 6–12 BIKES

Custom Bike Rack Trailers

What you get

INCLUDED IN EVERY TRAILER

Racks arrive fitted and installed. There is nothing to assemble and nothing left to organise.

- ✓ Heavy-duty trailer built from Australian steel
- ✓ GripSport bike racks, the industry standard
- ✓ Custom GripSport framing
- ✓ Registration, arranged by us
- ✓ ADR compliant and road legal
- ✓ LED lights and full wiring
- ✓ Hydraulic brakes on builds over 750kg GVM
- ✓ Checker plate floor with 300mm sides
- ✓ Light truck tyres for serious load capacity
- ✓ Jockey wheel and spare wheel
- ✓ Under-bike storage for helmets, tools and gear
- ✓ Charcoal enamel finish, blank panels for your logos

Every rack suits every bike — mountain, road, e-bike, fat bike and kids bikes.

OPTIONAL EXTRAS

- + Toolboxes
- + Extended drawbar
- + Dual axle upgrade
- + Electronic brakes *(needs a brake controller in the tow vehicle)*
- + Higher sides, up to 500mm
- + Custom colours

TWO TRAILERS IN ONE

Undo a few bolts and the racks and framing lift out, leaving a fully functional box trailer for the farm, the factory, the tip run, an exhibition or moving house. One trailer, two jobs, year-round value.

A traditional vertical shuttle trailer does one job well, but it can't be repurposed, it sits idle off-season, and it typically costs the same or more.

A larger build. Racks fold flat for compact, secure towing, and the framing lifts out to leave a plain tray.

A 6-bike build, with custom gas strut sealed lid and custom toolbox.

Custom Bike Rack Trailers

Pricing and practicalities

PRICING

Each price is the complete system — trailer, framing, GripSport racks and registration.

BIKES	RACKS	TRAILER SIZE	GVM	HYDRAULIC BRAKES	TOTAL INC. GST	PER BIKE SPOT
6	3	6 × 4 ft *1830 × 1220mm*	750kg	Not required	**$5,700**	$950

24	12	20 × 5 ft *6100 × 1525mm*	2000kg	Included	**$22,680**	$945

All prices include GST.

FREQUENTLY ASKED QUESTIONS

How long do trailers take to make?

Lead times can vary, but generally around 6 weeks build time, with most completing sooner than this.

Is rego included?

Yes. Rego is included, and GripSport handles the rego from our end. You just need to fill out one document and provide a copy of your driver's licence. Super simple!

Do I need to assemble anything?

No. The trailers are handed over with racks assembled and installed, ready to go. Please ensure you have a standard tow ball fitted for collection, and a 7-pin trailer plug for the lights.

Do you deliver?

Delivery can be arranged for an additional cost. Collection is from Campbellfield, Melbourne — drive in, hitch up, drive out! Interstate delivery can be arranged; ask us for pricing.

How many bikes can the trailers carry?

We offer full trailer systems from 6 bikes up to 24 bikes.

How much does the complete system cost?

Please see the pricing table above. These prices include trailer, framing and complete bike racks. Additional cost for add-ons and accessories as required.

I already have a trailer, what are my options?

If you already have a standard box trailer with 40mm sides/lip around the edge, then you can install our DIY Trailer Racks onto this. Fabrication required — contact us for info on DIY Trailers.

Ready to hitch up and go?

Every GripSport trailer is turnkey, Australian-made, ADR compliant and registered, built around proven GripSport racks — made in Melbourne since 1999.

Contact us today for a quote and lock in your new GripSport Trailer & Rack System.
